Editor of the *Reformer*:

The second annual History Fair of Windham County on Aug. 15 made history once again this year. Fairgoers took a step back in time on the historic Newfane Common, where they enjoyed exhibits, demonstrations, antique appraisals, local Vermont authors, village tours, crafters, food, and music. The Historical Society of Windham County is sincerely grateful to our fellow historical societies and to the many individuals who volunteered their time and expertise; to the period crafters who demonstrated their skills; and the local businesses and individuals who generously contributed financially or in product.
